SELECTED PROJECTS

NextStream — Node.js, Express, Stripe, AWS S3 *private beta prep*

- Built a creator video platform: uploads, live, shorts, messaging, creator studio, and Stripe wallet, tips and marketplace.
- 75+ releases hardening it for launch: encryption layer, rate limiting, admin health checks, audit log, backups.

HQ Command Center — Cloudflare Workers, D1, MCP, Claude API, Swift *deployed, personal use*

- Built an MCP server and dashboard where AI coding agents claim jobs and log progress across about 20 projects.
- Added per-device keys, a Mac voice app, an iPhone shortcut and a Roku TV channel via a relay that holds no secrets.

LeadFlow OS — Node.js, Express, SQLite *working MVP*

- CRM for leads and follow-up tasks with session auth, CSRF protection and org-scoped data, covered by API tests.

Homelab — Debian, Docker Compose, Tailscale

- 13-container home server: Open WebUI + Ollama for private AI, Pi-hole over Tailscale, Prometheus/Grafana, Home Assistant, backups.

Developer Portfolio — HTML, CSS, JavaScript, GitHub Actions *live*

- Hand-built, framework-free site with live GitHub data and an automated asset check on every push.

Also building: Website Factory, Dashipelago, TipAccord, SmartLifePlanner, Wavecrate and TradeGuard.

PROFESSIONAL EXPERIENCE

Four Seasons Resort — Server — Naples, FL | Mar 2026–Present

- Provide attentive guest service and coordinate with food-and-beverage colleagues for accurate, timely dining service.
